William Thomson

On Dr. Thomson's
Orpheus Caledonius

Ye beaus and belles so fine and fair,
How learn to love and be sincere;
True passion Nature still imparts,
Nor values Bodies without Hearts;
Ye falsely vow, and whine, and sigh,
(And) make no conscience of a lie;
(Ah!) How can Beaus fair Belles deceive!
Or why will Belles fine Beaus believe?—

Loves brightest Flames warm Scottish Lads
Tho' coolly clad in Highland Plads
They scorn Brocade who like the Lass
Nor need a Carpet, if there's Grass;
With pipe and flee each Hill resound
And Love that fires can heal them wound
The bonny Lass of Peatie's mill
Shews Wits a fool when Nature will;
Who pities not the Virgin's despair
That hears the Bush aboon Traquair;
Or him that loves yet cannot say
If Bessey Bell or Mary Gray;

Thus merely they court the fair
And love and sing in northern air;
Thus the gay warblers of the spring
From May to May cheer and sing
Mind Nature fills their little throats
With sweet and unaffected notes
Their fluttering wings & Love the measures
Their voices wild to Love the tunes
And all the cares they ever prove
Of life but Harmony, Joy & Love.

The Words to Oswald's air are from the Orpheus 1733 —

In the Roxburgh Ballads Part IX Mr Chappell has a long note explaining his having found a copy of this ballad printed on paper with a stamp of Queen Anne thus proving (as he says) that Mallet could not have written it — This is an erroneous conclusion however, for the volume containing this copy (British Museum) contains also a paper with details of 1745 with the same stamp of Queen Anne — Probably such paper might be in Printing offices and used up as waste — from time to time —

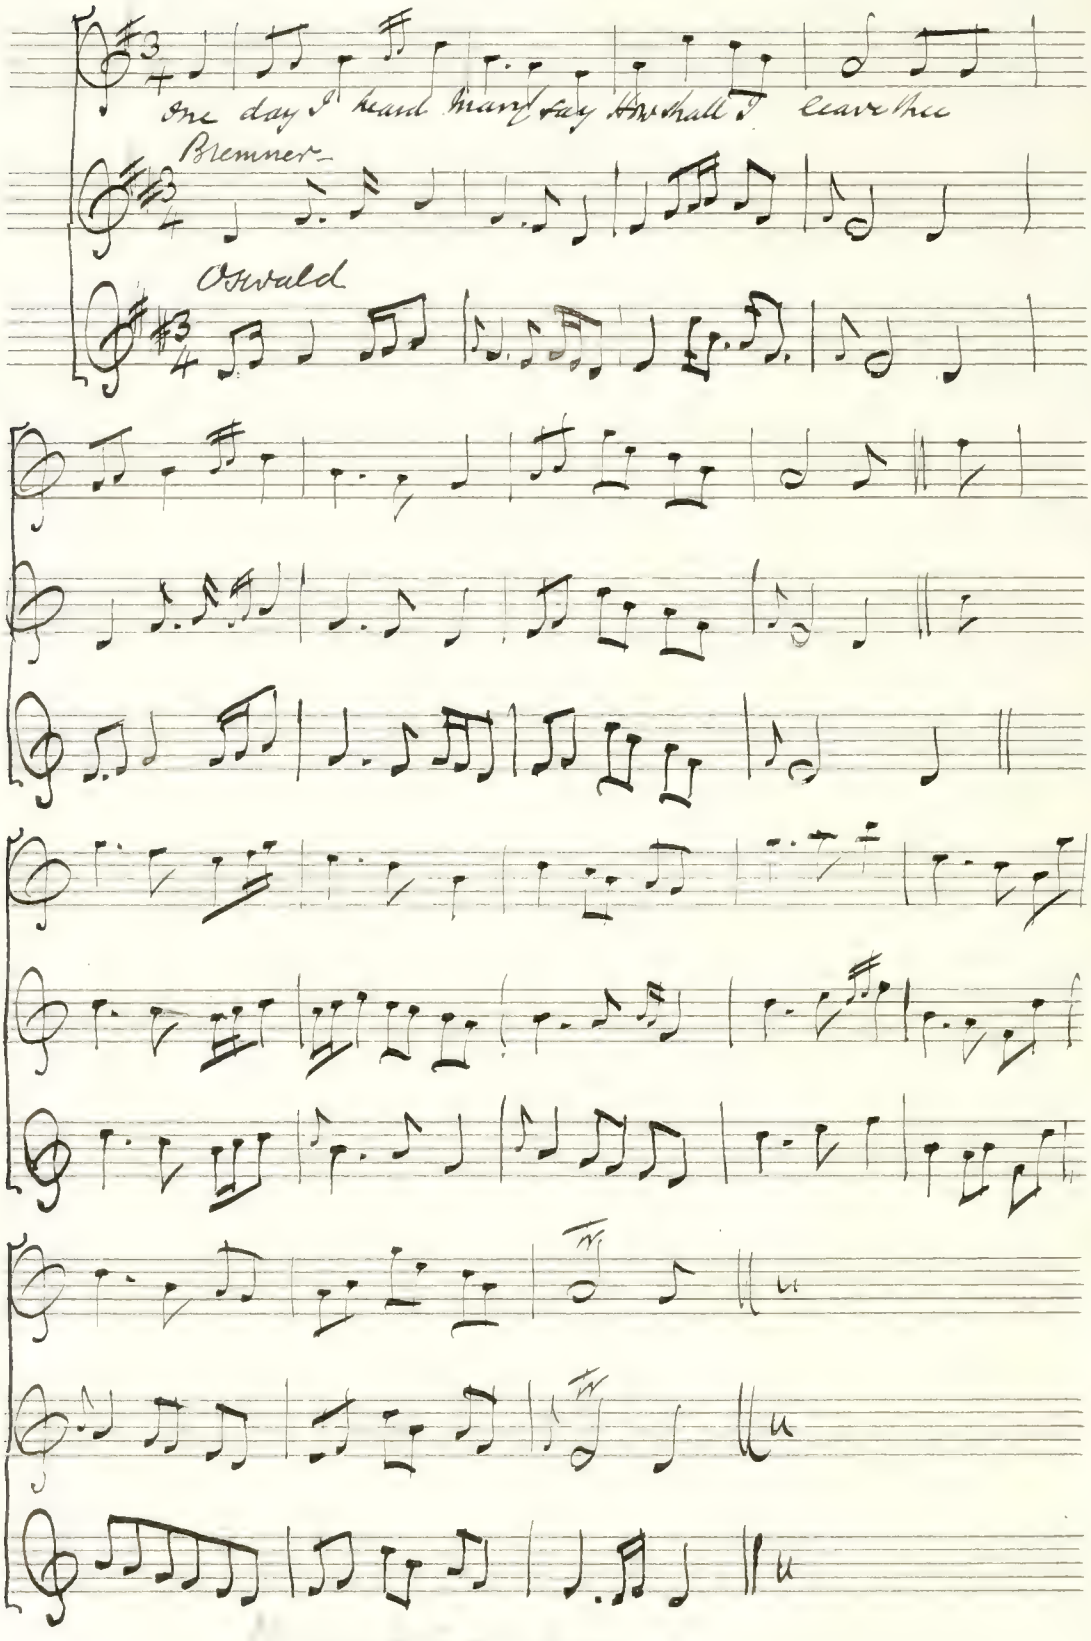
One day I heard Mary say – (I'll never leave thee)



Wood's New Tab. Songs, II. 135.

She rose and let me in —

This song was certainly written by Tom D'Urfey and was published in a thin small 8vo vol. (London—Hudmarsh 1683) entitled "Poems and Songs by Thomas D'Urfey - Gent:" — It was also printed in Playford's "Choice Ayres and Songs, to sing to the Theorbo-Lute, or Bass Viol: being most of the Newest Ayres and Songs, sung at Court and at the Public Theatres. Composed by several Gentlemen of his Majesty's music" and others. The Fourth Book — Printed 8vo 1683 — Ritson is quite right when he says "It is an English song and has been Scotified by the Scots themselves" — The claim made by Henderson that it was written by Semple is entirely groundless, there is not whatever by any early copy or early claim — It was first printed in Scotland by Allan Ramsay in 1724. (Tea Tab: Mis:) —

There is some diversity in the first stanza in different editions; Playford's is as under —

The night her blackest tables were
And gloomy were the skies
And glittering stars there were no more
Than those in Stella's eyes:
When at her Father's gate I knocked
Where I had often been
And shrowded only with her smock
The fair one let me in.

I made love to Kate, long I sighed for she till I heard of late
She'd a mind to me I met her on the Green in her best array so

The words to the earliest Philander are,

Ah cruel bloody fate What canst thou now do more?

and are applied to the air in the Apollo Sonnet 1687

Then we have "Young Philander," to the words

Young Philander would a wooing go - and later.

False Philander in British Melody 1739.

beginning - Farewell thou False Philander to an air in 3/4

and the same words to another tune by James Oswald

circa 1743.

XVIII ff + 210 pp. + pp. 66a-66b = XVIII + 106 ff.

xviii ff + 210 pp + pp. 6 aab = xviii + 106 ff.

There are a considerable number of tunes that are entitled in the indices of several works, or if not are to be found having Philander in their initial lines. In Chappell's Music of the Olden Time he makes mention of four songs having Philander as the tune. Chappell says again that this is a song, apparently referring to the Young Philander as found in W. Thomson's Orpheus Caledonius Vol. II 1733.
